

HW4: Project Email Campaign Testing

Gmail:

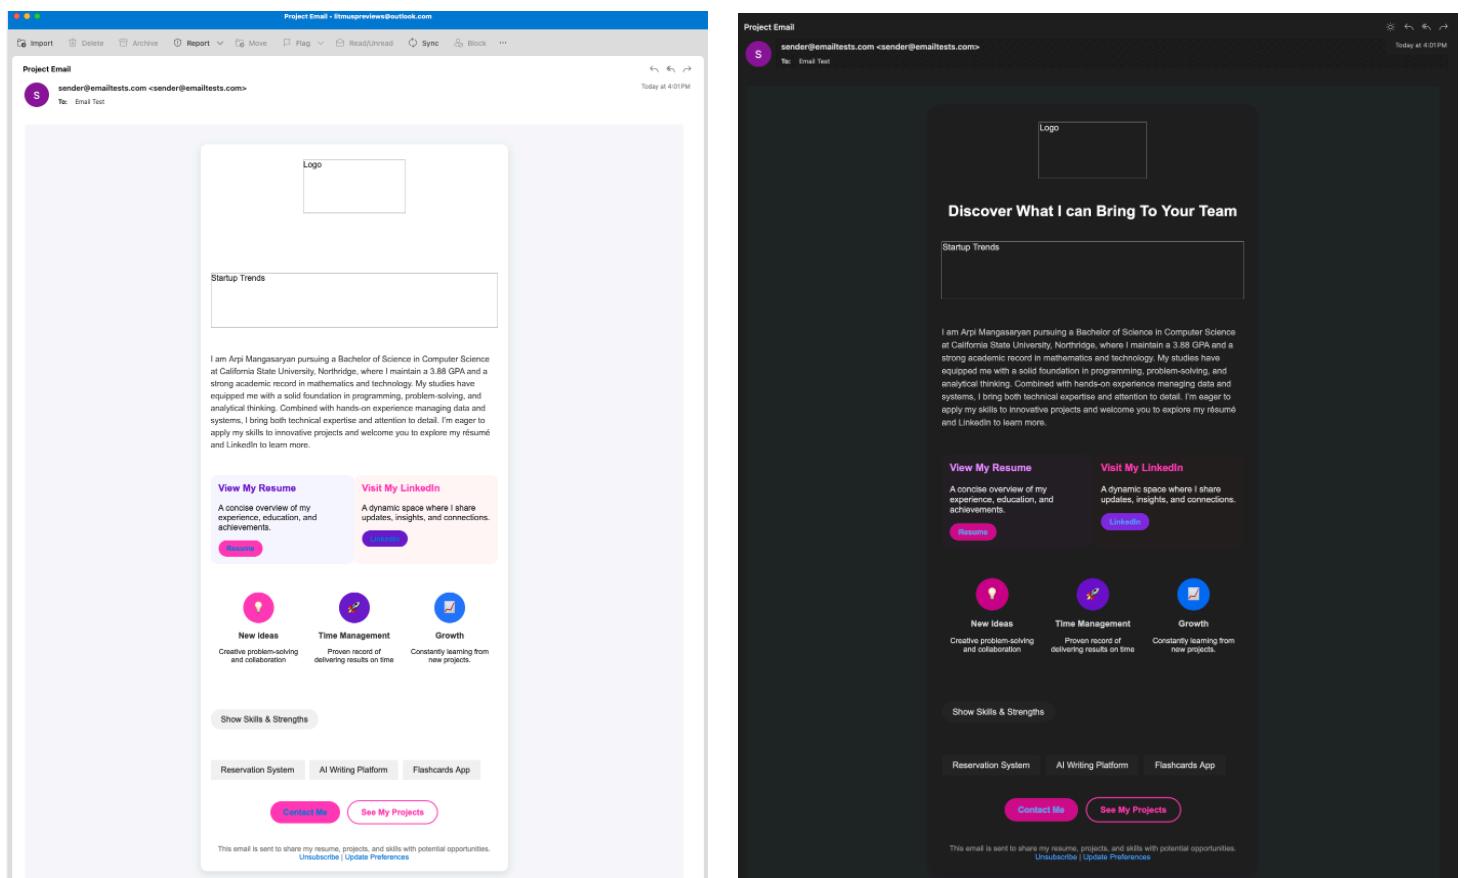

Layout: Perfect column structure and proper spacing

Responsiveness: Poor (Columns stacked correctly on desktop, but not on mobile) CSS background-image property for headlines is not supported.

Interactive Elements: Partial (Buttons worked, but checkbox and radio toggle failed)

Animation support: Poor (bounce effect didn't work)

Outlook:

Layout: Good (Basic layout intact)

Responsiveness: Good (Desktop and mobile stacking work) CSS background-image property for headline is not supported.

Interactive Elements: Poor (Buttons, checkbox and radio toggle completely failed)

Animation support: Bad (No CSS animations supported)

Startup Trends

I am Arpi Mangasaryan pursuing a Bachelor of Science in Computer Science at California State University, Northridge, where I maintain a 3.88 GPA and a strong academic record in mathematics and technology. My studies have equipped me with a solid foundation in programming, problem-solving, and analytical thinking. Combined with hands-on experience managing data and systems, I bring both technical expertise and attention to detail. I'm eager to apply my skills to innovative projects and welcome you to explore my résumé and LinkedIn to learn more.
